Experience

DroneView Technologies   **Bloomfield Hills, MI**
Sales and Marketing Intern   *May 2017 – August 2017*

- Evaluated all internal processes regarding creation of flight plans, QA/QC of Ground Control Points and new contact creation in CRM; leading to more efficient guidelines for conducting and completing tasks
- Assisted in gathering data as well as conducting outbound sales calls in order to grow business contacts; resulting in multiple contracts and partnerships with clients
- Created CSV Parser Program to assist in MailChimp contact upload process. Used CRM export of contacts along with program to concatenate contact tags resulting in quicker and easier uploading

University of Michigan   **Ann Arbor, MI**
Teachers Assistant, Bio 173 Lab   *January - April 2016*

- Served as a teaching assistant in a microbiology lab and supervised students as they conducted experiments in order to enhance their comprehension of the material; resulting in research data used by the University in discovering new information about the effects of fiber on the gut microbiome
- Assisted two professors by analyzing dietary fiber and amylase concentration in different students' microbiomes; led to better understanding of the role the microbiome plays in producing carbon dioxide

Bagger Dave's   **Novi, MI**
Server   *June 2015 - August 2016*

- Learned valuable time management skills by maintaining quality service and efficiency, simultaneously; resulted in faster turnover and an enhanced guest dining experience

Additional Information

- Created Machine Learning Title Prediction AI, Euchre (card-game) playing AI, GPA Calculator, and CSV parser program used for MailChimp upload process
- Achievement award for programming at the University of Michigan EECS 183 showcase
- Director of Content: MPowered, member of Academic Judicial Committee, and Stand-Up Comedy Club
- Fluent in Urdu and Hindi
